The BASI (Basic Achievement Skills Inventory) tests facilitate evaluation of student skills for initial placement help to gauge progress on specific Grad-Point learning objectives and provide practice or predict performance on high-stakes testing. M-Step, PSAT and SAT curricula help students prepare, and practice tests help students determine when they are ready to take the actual exams. Grad Point is proven to get results quickly. Through the individualized, self-paced Grad point curriculum, students can make significant progress with minimal time

Eligible Students

Any student, who is 16-19 years of age, has/or not taken the M-Step, SAT and who has been expelled for disciplinary reasons.
